## *Product Specifications*

### *SLIP ADDITIVE MASTERBATCH*

## *AddKan AD /01/0007*

---

*Masterbatch based on highly pure euracamide slip additive. It's an excellent release agent for all polyolefins in injection and rotational moulding. Reduces the coefficient of friction on the surface of PE films by making it smooth. The product also improves the melt flow characteristics and cycle times.*

Typical Properties	Typical Values	Units
Bulk Density	0.6-0.8	Gms/ml
Moisture Content	<0.1	%
Melt Flow Index	27+/-6	Gm/10min
Pellets/Gram	70+/-6	Nos
Carrier Resin	LD/LLDPE	
Heat Stability	Thermally stable under normal processing conditions	

*All the above values are obtained under standard conditions with our testing facilities, may vary under different conditions and depending upon the accuracy and efficiency of the man and the machine. So it's recommended to test the above properties to finalize the use of the product for specific and particular applications. The information regarding the minerals is based on the test results and reports provided by the supplier.*
