

Kandui Industries Pvt. Ltd.

These white master batches are suitable for diverse processes ranging from cast film, blown film and extrusion coating films, injection moulding & blow moulding, woven sacks. These master batches have excellent pigment dispersion and can be processed easily. Specific White master batches are also available for specific applications. These include UV stabilized grades, grades with specific colour tone, weatherable grades.

Polymers, Titanium Dioxide, other pigments used are acceptable for food contact.

You are most welcome to speak to our Marketing representatives for your specific requirements. We will be more than happy to cater to your needs.
