

KANDUI INDUSTRIES PVT. LTD.

Product Specification

AddKan Masterbatch

DESSICANT MASTERBATCH

AD/01/0034

This is special type additive master batch which use to elimination moisture from master batches which adsorb during transportation and due to high humidity. This is suitable for film, moulding applications and recommended dosage level is 1-2% depending on moisture level.

Typical Properties	Typical Values	Units
Moisture Content	< 0.01	%
Heat Stability	280-300	° C
Bulk Density	1.100	g/ml
Applications for grade : Multilayer films, Injection Moulding and all Extrusion Applications		

All the above values are obtained under standard conditions with our testing facilities, may vary under different conditions and depending upon the accuracy and efficiency of the man and the machine. So it's recommended to test the above properties to finalize the use of the product for specific and particular applications. The information regarding the minerals is based on the test results and reports provided by the supplier.
